

ORCHARD QUILTS WITNESS CHAIR SHEDDING TEARS OF REPENTANCE FOR HIS FEARFUL CRIMES

**Acknowledges That He is a Human Monster
but Believes He Did His Duty
in His Confession**

"TO HIS GOD, TO HIS COUNTRY AND SOCIETY"

**A Grocer From San Francisco Corroborated Orchard's
Testimony as to the Poisoned Milk—Given \$200
for Expenses to go to Boise.**

Boise, Idaho, June 14.—Harry Orchard, self-confessed assassin, exhibited agitation, real or fictitious, at the climax of his cross-examination. For six whole days he has withstood an unrelenting fire of questions designed to emphasize his fliendishness, and the climax came when he told the jury why he confessed and implicated William D. Haywood, Charles H. Moyer, George A. Pettibone and others in his crimes. "Professing resignation to his fate, whatever it may be, announcing that he believes his awful sins are to be forgiven in the hereafter and placing an abiding faith in the Bible, Orchard tearfully referred to himself as a monster who has seen a great light and is now trying to do his duty to "his God, the country and society."

Orchard's guiding motives were assailed bitterly by the defense. Everywhere the latter charged Orchard was committing another crime in falsely swearing away the lives of innocent men in the hope of saving himself. "I have thought over what I would say, but did not rehearse anything. No one instructed me what to say," Orchard said in defiant tones when the defendant's attorney asked him where he had learned his speech.

Orchard left the stand after having occupied it for a total of 32½ hours. Just before he was excused and remanded, he went back to the hands of the prosecution and identified the casing of the bomb he planted at the gate of Judge Goddard's house in Denver. Orchard is to return to the witness chair later, because the defense must lay the formal lines for impeaching him and the state must still have its re-direct examination.

For hours the defense hammered away on the motive of saving his own life. They sought to show it in the force of example drawn from the immunity of informers in the Mollie McGuire cases, but this the witness would not admit. Next they sought for it in Orchard's effort to bring Steve Adams to the state, and then in the subsequent meetings with McParland and Governor Gooding. Once again they emphasized the fact that the witness had twice written his testimony out, but Orchard repelled the suggestion that it had been changed by McParland, Attorney Hawley or anybody else. After that it was suggested that Orchard had placed his future in the keeping of McParland; that the Pinkertons had sent money to his family in Canada; that he had been supplied with dates to strengthen his story, and that McParland had trained him as a stage manager would for his appearance on the stand, but all this Orchard denied. Then they tried to show him a pampered, petted, hero-like prisoner fed from the table of the warden, addressed as "Harry" by Governor Gooding and Warden Whitney, given freedom and liberties that no other prisoner ever had in the world, and all this consideration implying directly that he would never be hanged for killing Steuenerberg. Then came a showing as to how the prisoner had been dressed and groomed for the trial, and lastly, for climax, they showed Orchard pleading for and saving the life of Bob Wetter, condemned to death for murder. Orchard admitted that he had appealed to Governor Gooding about Wetter and that later Gooding first reprieved Wetter and then commuted his sentence of death to one of life imprisonment.

Immediately Orchard left the stand the state began the corroboration of the Bradley poisoning story. Mrs. Sadie Swan, who was Miss Sadie Bell, was a maid in the Bradley home; Oliver Crook, the milkman, who sold the milk that was poisoned, and P. L. McCreary, the chemist, who analyzed the poisoned milk, carried the revolting tale, from the discovery because of its bitterness that the milk was poisoned to the analysis that showed from 46 to 60 grains of strychnine in a quart of it. Mrs. Swan identified Orchard and connected him with the house. They all confirmed the date as within

three or four days of the explosion, and Mrs. Swan swore that she opened the front door to get the morning paper a few minutes before the explosion, and saw nothing on the steps.

Former Governor Peabody of Colorado met Harry Orchard in the office of the counsel for the prosecution. The meeting was unexpected as far as Orchard was concerned, and when he saw Peabody advancing toward him with hand outstretched he blanched and began to tremble. "I am ashamed to speak to you, governor; I am ashamed to look at you," faltered Orchard. "Oh, that's all right," said Peabody, laughing. "You need not be ashamed to speak to me now."

Determined to dispose of many comparatively unimportant witnesses today, the prosecution in the Haywood trial devoted considerable time to examining persons who knew of Orchard's alleged operations in California. That Senator Borah will call witnesses to follow the lines of Orchard's story closely to make connection with the defendants if possible, is plain.

L. B. Gubbing a San Francisco grocer, declared Orchard stayed about his place in the fall of 1904 until the attempt was made to kill Bradley. Gubbing confirmed Orchard's story about the poisoned milk. On cross examination Gubbing declared the detectives located him and told him to come to Boise. He was given \$200 for expenses. He had seen Detective McParland and Prosecutor Hawley since he came here and talked over the case.

Lieutenant Hart of the British navy was killed and three sailors were injured by an explosion of gasoline on board a submarine boat.

MRS. KAUFMANN'S MURDER TRIAL IS NOW DRAWING TO A CLIMAX

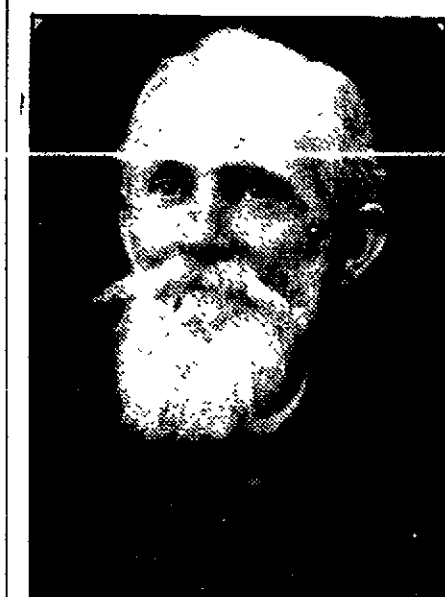

Mrs. Kaufmann
accused of killing her servant

Flandreau, S. D., June 14.—Shaded strongly by the tragic and pitiful trial of Mrs. Emma Kaufmann, wife of Moses Kaufmann, a wealthy Sioux Falls brewer, charged with the murder of Agnes Polreis, her 16-year-old servant girl, is drawing to a climax. Already the prosecution has wielded a remarkably strong chain of evidence against the accused, and the feeling in this and neighboring communities is running high over what is termed the cold blooded inhumanity of Miss Polreis' alleged tormentor. The State has closed its case and Judge Aikens, for the defense, in

were at once appreciated by the citizens of Newark, and the county, for he has served nine years as physician at the County Infirmary and six years as Newark's health officer. Dr. Day is a graduate of the University of Virginia and of the University of Maryland, is a member of the Masonic order, and is a hard worker for Newark's interests all the time.

BANDITS RAID A HOSPITAL

Chicago, June 14.—Three heavily armed and masked men, early today drove up to a North Shore health resort at Winetka, north of Chicago, a fashionable sanitarium for the treatment of nervous disorders, and ransacked the place, throwing 37 patients into a state of nervous terror, and leaving some in a critical condition. The men walked through every corridor, forcing the nurses to accompany them and show them where the patients' clothes were kept. The patients were forced into quietude at the point of revolvers and the bandits procured over \$2,000 in money and jewelry and escaped.

The Woman in Blue.

Oyster Bay, N. Y., June 14.—The executive offices received a call from "The Woman in Blue," understood to be Mrs. Lully Lee of Brooklyn. The woman in blue received considerable notoriety two years ago. Mrs. Lee arrived on a late train. She at once made a thorough inspection of the water front and then went to the executive offices. She contented herself by inquiring after the health of all her friends and leaving her compliments to the secret service corps.

COSTA RICO MAY BE DRAWN INTO THE CONFLICT

DISPATCH FROM UNITED STATES
REPRESENTATIVES GIVES
THIS INFORMATION.

OF CENTRAL AMERICAN WAR

President Zelaya is Accused of an
Ambition to Form a Federation
of the States.

Washington, June 14.—President Zelaya and his ambition to form a Central American Federation is responsible for the recent renewal of hostilities between Nicaragua and Salvador. In a dispatch to the state department today, the consular agent, Oliver, at Managua, capital of Nicaragua, says, "In accordance with the Central American union plan, President Alfaro, who is the popular unionist candidate for the presidency of Salvador Nigueria, president of Salvador opposes the union ideas."

In the opinion of the state department officials the inevitable result of President Zelaya's action will be to plunge the whole of Central America into a prolonged war. There is little doubt that he has ultimate designs on Guatemala. It is expected that Guatemala will be drawn into the fight on the side of Salvador. It is quite likely that Costa Rica too, will be brought into the conflict.

REVOLUTIONISTS

Seek Confederation of the Central
American States.

Mexico City, June 14.—The following cablegram was received in this city from President Zelaya of Nicaragua: "The revolution headed by Dr. Alfaro has assumed significant proportions. He is in favor of the confederation of the Central American republics." Dr. Jose de Dolores Gamez, secretary of state of Nicaragua and a close friend of President Zelaya, who arrived in Mexico City bringing a message from President Zelaya to President Diaz, said: "Nicaragua is taking no part in the revolution of Salvador. The movement is wholly a revolutionary one, without outside aid. Nicaragua sympathizes with the revolutionists because our country is anxious to see a firm government established in Salvador, but is taking no hand in the movement in any way."

THREE PERISH IN BIG FIRE AT NEW HAVEN, O.

Cincinnati, O., June 14.—Fire this morning destroyed four buildings of the Shaker community at New Haven, O., caused the death of Mary Middletown, Julia A. Bear, and Mrs. Sturr, colony manager, and fatal injury to an unknown man. Other aged occupants of the buildings escaped from the windows. The entire savings of the community, a large sum, burned. All the victims were infirm.

SECRETARY TAFT SUDDENLY STRICKEN

St. Paul, June 14.—After reviewing the U. S. troops at Fort Snelling today, Secretary Taft complained of feeling faint and oppressed by heat. He was taken into the city to the home of John C. Hill, where he is now resting comfortably. The doctor says Taft is not in a serious condition and will be able to attend the banquet tonight.

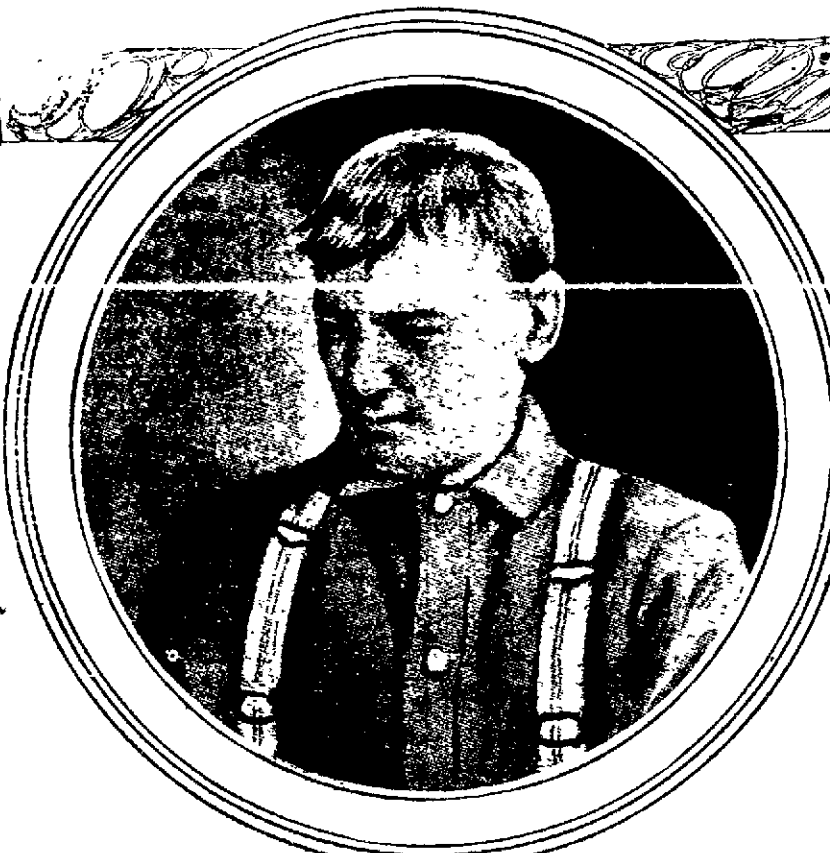

Will Close Plant.

Chicago, June 14.—It was announced that the plant of the Chicago Ship-building company at South Chicago will be permanently closed. The plant has not been in operation since last March, when the employees struck in sympathy with the boilermakers in the Lorain yards of the same concern. Tuesday night the strikers voted to continue the strike, and the management of the company has decided to close the plant. All of the machinery and material at the yards will be removed to Lorain. Nothing but a small repair shop will be maintained at South Chicago hereafter.

Quake at Kingston.

Kingston, Jamaica, June 14.—After an interval of six weeks an earthquake shock occurred here at 1:20 a. m. Thursday. It lasted four seconds and came from a new direction, a little west of north. The maximum movement was eight. There was considerable alarm, but no damage was done.

STEVE ADAMS' TESTIMONY WILL CAUSE SENSATION

STEVEN ADAMS.

Boise, June 14.—There is much speculation as to what Steve Adams will say when placed on the stand as a witness for the State in the trial of William D. Haywood. Orchard has said that Adams was his partner in many of his most desperate undertakings, such as the blowing up of the Independence Station. Adams, who came to Boise from Shoshone county, where he was awaiting trial for murder, is said to be in a sullen mood and not likely to answer any of the questions. It is known that his repudiated confession is in the hands of counsel for the prosecution of Haywood, but it is doubtful if this confession can be brought within the cognizance of the jury unless Adams himself consents.

Mrs. Annie Adams, who has been in Boise since the trial began, and who is in daily attendance at the court room, saw her husband at the county jail. She is credited with

much influence over her husband. It was at her solicitation, it is said, that he repudiated the confession he made last year. He went so far, after making the confession, as to travel to Colorado with General Bulkeley Wells, and report has it that, under the direction of Adams, evidences were discovered that cleared up the mysteries of several disappearances. Skeletons of non-union miners who were believed to have been killed, but the proof of whose death had never been found, were discovered.

The most startling part of Adams' alleged confession is the murder of Arthur Collins, manager of the Smuggler-Union mine, near Talluride, in Colorado. After making the confession Adams was taken to Collins' house, and he pointed out where he stood when he fired the shot that killed Collins. An accumulation of corroborative evidence is said to have been obtained.

PASSENGERS LEAP INTO THE WATER IN STEAMER ACCIDENT

Nome, Alaska, June 14.—The steamship Ohio, owned by the White Star Steamship company, struck on ice at Port Safety. A huge hole was stove in the ship's bow and the vessel began to fill rapidly. A panic ensued among the passengers. Before the lifeboats could be lowered more than 75 persons had jumped into the water. Two white men and a Chinese were drowned. Otto Andersen was one of the victims. When order had been restored among the passengers the Ohio backed off the ice and returned to Nome badly damaged.

BODY RECOVERED FROM THE LAUNCH WHICH WENT DOWN

Norfolk, Va., June 14.—The body of Coxswain Robert H. Dodson of the battleship Minnesota's ill-fated launch which, with its 11 occupants, six midshipmen and five seamen, went to the bottom off Hampton Roads in the darkness of Tuesday night, was found floating in the roads. It now seems to be accepted in naval circles that the little launch was run down by a coal barge shortly after the frail boat carrying the 11 men left Discovery landing.

FIRST BUSINESS AT THE HAGUE

The Hague, June 14.—The first real business at The Hague peace conference was transacted today when representatives of 47 nations met and signed the protocol of the 1909 conference by signing a document that all nations enter the conference on an equal footing. The first plenary session will be held Saturday. One feature of the conference is the temporary loan prices charged for everything. The conference will cost the nations participating a huge sum—\$1,000,000. General Honore Poincaré and Joseph A. Choate today signed for the United States.

Bird Candidate in Lead.

Oklahoma City, June 14.—Official returns from the Democratic primaries received here from 49 out of 77 counties gave T. P. Gore of Lawton, the blind candidate for United States senator, a majority of 1,500 over Roy Hoffman.

CONTRACTOR SHOT AND KILLED HIS BROTHER-IN-LAW

Paducah, Ky., June 14.—Will Champion, prominent tile contractor, shot and killed Lee Tracey, his brother-in-law, and Tracey's lover, Grace Brown, at a camp in Lyon county. A double-barreled shotgun was used. Tracey was cutting ties for Champion and had left his family and was living with the Browning woman. He was ordered by Champion to get out of camp. Tracey became angered and fired two shots from a revolver at Champion, who fired the shotgun and Tracey fell dead. The woman grabbed a revolver and raised it to shoot, when Champion discharged the other barrel of the shotgun. She dropped dead. On reaching Eddyville, Champion gave himself up, and is being guarded. It is believed that Champion will be acquitted.

LEVY ASSESSMENTS ON TELEGRAPHERS

New York, June 14.—The general executive committee of the Commercial Telegraphers' union, at a meeting in this city, voted to levy a general assessment on the members. After the meeting, the committee announced that the national president of the organization had sent the following telegram to the local presidents of 170 local unions: "Situation may bring trouble with one or both companies. Get ready to meet a general assessment. Put local in touch immediately with labor men and others who would be useful morally and financially."

REYNOLDS IS FREE

Columbus, June 14.—Harry Reynolds, the Cleveland-Norwalk bicus, was released from the penitentiary today on parole, granted by the prison board last night. The prison officials say Reynolds had a number of endorsements to parole while no one protested.

Voliva's Reply.

Chicago, June 14.—William G. Voliva, who claims the title of general overseer of the Zion City church, made his reply in court to the petition recently presented by Receiver John C. Hatley for permits, on to sell all of the Zion City property now in his hands. Voliva declares in his answer that at the time of making the will by which he named John A. Lewis overseer of the church, John Alexander Downie was insane, and was known by Lewis to be insane. He asserts that Lewis is working with the receiver to disrupt and destroy the church.

MAYOR SCHMITZ IS FOUND GUILTY OF EXTORTION

JURY WAS ONLY OUT AN HOUR
AND A HALF TO REACH
VERDICT.

MAINTAINS HIS INNOCENCE

In a Statement Issued Alleging Prejudice on the Part of the
Judge.

San Francisco, June 14.—Judge Dunne today refused to release Mayor Schmitz on bail and ordered him remanded to the custody of the sheriff until tomorrow.

San Francisco, June 14.—Mayor Eugene F. Schmitz was found guilty of the crime of extortion, the jury returning a verdict after a deliberation of one hour and a half. Only two ballots were taken.

Mayor Schmitz displayed no emotion when the verdict was announced. He dictated the following statement to newspaper men: "No matter what the decision of the jury, which was got under most adverse circumstances, regarding myself, I still maintain and affirm that I am absolutely innocent of the crime charged and will fight the case to the last resort. As I said before my trial, I did not expect nor did I receive fair or even decent treatment at the hands of Judge Dunne, and realizing this prejudice I made every effort to have the case transferred to any other judge in the state. I do not take this as a defeat, and the decision makes me all the more determined to seek and secure justice in another court."

The jury elected Charles E. Capp foreman, and at once proceeded to an informal ballot. This was cast verbally, and stood 11 for conviction, 1 for acquittal, Juror Burns, a shoemaker, casting the dissenting vote. Then the 12 men began a discussion of the evidence, which lasted nearly an hour. At the end of that time the first formal ballot was cast. It was a written ballot and was unanimous for conviction.

The jury issued this statement immediately after their dismissal by the court: "In justice to Juror Burns, it should be explained that he did not vote for acquittal because he was dissatisfied with the evidence nor because there was any doubt of the defendant's guilt. Two forms of verdict were given to the jury, and the consecutive reading of these momentarily confused Mr. Burns. As soon as he understood the matter he cast his vote with the other 11 and the verdict was accomplished." Mr. Burns approved this statement as correct.

The testimony of Abe Ruef, the former political boss and friend of the mayor, was the feature of the trial. Ruef told the jury that he went to Schmitz's former residence and handed to the mayor at stated intervals one-half of the "fees" of \$5,000 and \$3,000 paid him by the proprietors of the five French restaurants of San Francisco before the fire.

PATIENT SUICIDES.

Toledo, O., June 14.—Mrs. Lottie Trissies a patient in the Toledo State Hospital from Hardin county, suicides by hanging today.

MAYOR IN NAME BUT NOT IN FACT IS EUGENE SCHMITZ

San Francisco, June 14.—Mayor Schmitz, who was found guilty of extortion last night, is now mayor in name only. By law he cannot exercise the duties of the office and must remain in custody pending an appeal to the supreme court. The elimination of Schmitz leaves the prosecution in complete control. Should the supreme court affirm the court's decision the supervisors will elect a new mayor. This will probably be ex-Mayor Phelan, now in New York. Phelan has been mayor three times. His election would restore confidence, and standing against Schmitz are four indictments for extortion and 20 for bribery. The mayor's next trial will be on a bribery charge.

Reverses Old Executive Order.

Oyster Bay, N. Y., June 14.—President Roosevelt issued an executive order which will permit the interchange of employment in the federal forest service, the biological service and certain employments under state and territorial governments. This order reverses an executive order of Jan. 17, 1878, which declares that persons holding any federal civil office by appointment shall not accept or hold any office under any state or territorial government or under any municipality. The order of President Roosevelt is based upon the expressed necessity for cooperation in the protection of forests, stock, fish and game.

GRANVILLE NEWS

Granville, June 14.—Prof. and Mrs. Charles L. Williams entertained at their beautiful home in Granville most pleasantly last evening in honor of their silver wedding anniversary. The house was beautifully illuminated with candles and gay with decorations while the lawn was lighted up with multi-colored Japanese lanterns. The event was the crowning social function of commencement week, and the guests so pleasantly received by the Professor and his wife spent a most delightfully pleasant evening, showering the host and hostess with their congratulations and wishes for many happy returns of the day. Many prominent persons honored the home, the following persons having received invitations from the village:

Mr. and Mrs. J. Crawford, Mrs. and Miss Wartenbee, Mrs. T. H. and Mrs. T. J. Howland, Miss Emma Howland. About a hun-

dred out of town guests were invited, and many of them were present.

Many elegant and costly presents were received by the bride and groom of twenty-five years ago. Among the most beautiful may be mentioned a silver candelabrum given by the friends and members of the faculty of Denison university in the village. The bride was as beautiful as any June bride of today and was beautifully gowned for the occasion.

In the receiving line, besides the host and hostess, were their daughter, Miss Helen Williams, Mr. and Mrs. Holman of New Jersey, Miss Henderson and Miss Bodine of Philadelphia and their nephew, Mr. LaRue.

In the course of the evening bountiful refreshments were served on the porch to the many guests and the music was furnished by a harpist from Columbus.

ANNUAL MEETING

After Alumnae Association of Shepardson College Held in Doane Gymnasium.

Granville, O., June 14.—One of the most interesting as well as enjoyable events of the commencement week was the annual reunion of the alumnae and friends of Shepardson college which was held in Doane gymnasium on Wednesday, at which a most elaborate luncheon was served by the Junior girls. Following the luncheon Dr. E. W. Hunt and Mr. Charles Marsh of Chicago made appropriate remarks. Dean Barker announced a memorial fund for Mrs. Clara James Roberts that has been presented to Shepardson college by her husband, Rev. Mr. Roberts. The proceeds of the fund will be used to purchase works of art for the college.

The president of the association, Mrs. Hines, then welcomed the class of 1907, and Clara Roubush made the response in their behalf.

Mrs. Robbins and Dr. Robbins of Cincinnati then made some remarks for the guests of the association who were present.

The oldest living graduate of the institution was announced to be Mrs. Martha Spellman Downer, of the class of 1843. The earliest graduates present were Mrs. Alice Peters Tuttle, '61, and Miss Alice Luce '66.

Mrs. Jessie Husted Chamberlin then spoke in behalf of the class of '97, which is celebrating its tenth anniversary by a reunion. This class introduced the use of caps and gowns into Shepardson.

Miss Mary Tuttle then spoke for the class of 1902, and Edna Thornton for the class of '06.

The obituary report was given by Mrs. Mary Anderson Davies. Those who have departed during the year are Mrs. Emma Rees Williams and Miss Carolyn Palmer who was librarian of Stetson university, Florida.

After the secretary and treasurer's report a motion made by Mrs. Burton Case for the observance of Shepardson Founders' Day was adopted unanimously.

Granville, O., June 14.—At the conclusion of the commencement exercises of Denison university held on Thursday, it was announced that the English prizes to the young ladies who had prepared and read the best essays at the senior exhibition were awarded as follows: Miss Mary McKibben was the winner of the first prize, \$10, while Miss Bess E. Wilson carried off the second prize of \$5.

In the contest for the best prepared and read orations the first prize of \$10 was awarded to C. H. Starrett and the second prize of \$5 to Ernest Cornell.

Joseph H. Lloyd was announced as the winner of the Moss prize.

The Talbot prize was won by E. P. Legler and Joseph H. Lloyd, each receiving \$30.

In the Lewis prize contest the debate was won by Elmer Heator, \$50. The oration prize was won by F. R. McArthur, \$30.

The essay by D. S. Dye, \$20. The declamation by Joseph H. Lloyd, \$10.

The Shepardson Bible study prizes were awarded as follows: First, Miss Blanch Black; second, Miss Ann Sorenson.

The Marsh prize of \$100, which is the prize given by the Civics department for the best essay on a subject given out by the department was won by D. S. Dye.

The Mahoney Peace prize for the best essay on international arbitration was won by F. R. McArthur.

Granville, June 14.—At a meeting of the Denison alumni, held Wednesday morning in Sherwin Hall, some important business was transacted, officers elected, and interest aroused in the organization.

It was decided to continue to the practice of publishing every fifth year a general catalogue. Also an innovation was made in the manner of a bulletin to be published yearly and contain the changes in addresses of alumni and any deaths occurring during the years. A list of ex-students is to be made and kept in as good a form as that of the alumni.

Officers were elected for the ensuing term as follows: President, C. A.

Marsh, '78; vice president, P. W. Longfellow '88, and secretary and treasurer, W. H. Johnson, '85. The executive committee is composed of C. W. Chamberlain, '94, W. H. Roberts '03, and W. E. Wickenden '04.

Granville, June 14.—The funeral services over the remains of the late Moses James will be held at the home on East Maple street on Saturday, June 15, at 1 o'clock p. m. and the burial will be made in Maple Grove cemetery. The deceased was born in Granville township on May 15, 1865, and died on Wednesday morning after an illness of some time with yellow jaundice, as was stated in the Advocate. The deceased was the youngest of 11 children of Mr. and Mrs. Watkins James, and he had spent his entire life in Granville and in Granville township. On April 13, 1887 he was married to Miss Sadie Ely, and to this union were born three daughters, who with the bereaved widow, survive him. The members of the bereaved family have the sympathy of all their friends in their sorrow.

Rev. Wright Married.

Three marriage of Rev. F. C. Wright of this place to Mrs. Emma Vansickle of Coshocton county, took place last Saturday at the residence of Clarence Eddy of Coshocton, who performed the ceremony, assisted by Rev. C. N. Harford of Granville. After the ceremony a simple wedding luncheon was served by Mrs. Eddy, before the departure of the newly married couple for New Comerstown. It is expected that Mr. and Mrs. Wright will eventually make their home in Granville where they will receive the welcome of a host of their friends.

Communion Services.

Communion service and reception of new members at the Presbyterian church next Sabbath morning. This is the most sacred service in the Christian church and all members are earnestly requested to enjoy the Saviour's holy institution and communion. "This do in remembrance of me." Preparatory service at 2 o'clock Saturday afternoon in the church parlors. Rev. Cosgrove of Newark, will address the meeting. The usual evening service Sabbath by Rev. D. Dempster. A cordial invitation to everybody.

Phi Gam House Party.

The annual house party of the Phi Gamma Delta commenced Thursday evening with a dance at Buckeye Lake. Twenty-five couples were in attendance. Mrs. S. S. Chamberlin of Dayton acted as chaperon of the Phi Gamma house party.

Miss Frances Reed of Savannah, Ga., is a guest at the Phi Gam house party.

Beta's Dance.

The members of the Beta Theta Pi fraternity gave a most enjoyable dance at their lodge room Thursday evening.

TO THE CHILDREN

OF NEWARK

Owing to the fact that there might be an accident in our river excursion to some of the children, we will substitute substantial prizes; so children save the labels you get off of the National Biscuit company's bread and bring them to the Walnut bakery after July 1st and get your prize. It only takes from 50 to 100 labels.

W. S. WEIANT.

Mukden the Capital.

Mukden, June 14.—On the arrival of Viceroy Hsuhshik-Chiang, Mukden became the vice regal capital of all Manchuria. At the end of a year devoted to the modernizing of its three provinces, Manchuria for the first time since the Manchou emperor's court departed for Peking now possesses a centralized government, and after two and a half centuries of Manchou administration becomes, under a Chinese viceroy, the most important province in all China.

SHOT HIS WIFE THEN HIS CHILD AND ANOTHER

MURDERER ESCAPED BUT THE BLOODHOUNDS ARE ON HIS TRAIL.

Bigamist Paroled at Meeting of the Penitentiary Managers—Ohio State News.

Ironton, O., June 14.—Charles Shafer, 32, of Spanglers Creek, in this county, shot his wife and her mother, Mrs. George Thacker. He then took his little 8-year-old son up on a hill and shot him twice and then attempted to burn the body. Shafer is still at large. A posse and bloodhounds have been dispatched from here. Domestic trouble was given as the cause of the tragedy.

Mrs. Shafer, the murdered wife, was formerly a school teacher. Shafer it is said was compelled to marry her. For five years they lived apart, but he promised to do better and reconciliation was effected. Thursday he whipped his wife cruelly, and the constable arrested him. He was released on bond and returned to his wife's mother's home. After knocking her down, he drew a revolver and began shooting.

After shooting the women the little boy begged pitifully to be left with his mother, but the father dragged him away up the hillside to the nearby woodshed, then placing the revolver against his head, blew out his brains. Afterwards he shot him through the heart, then built a fire and attempted to burn the body.

Bigamist Paroled.

Columbus, O., June 14.—The board of managers of the Ohio penitentiary granted a parole to Harry Reynolds of Huron county, who was sentenced to three years for bigamy. He was received at the institution June 1, 1906. He was charged with marrying Mae Smith at Norwalk while he had a wife living in Cleveland. Reynolds is a mechanical engineer and has been a valuable assistant to the superintendent of construction at the penitentiary since his incarceration. Many prominent citizens of northern Ohio are said to have signed Reynolds' application for a parole.

Grand Army Elects.

Canton, O., June 14.—The Ohio department, G. A. R., elected officers as follows: Commander, W. S. Rogers, Cleveland; senior vice commander, J. J. Clark, Canton; junior vice commander, George C. Mason, Clyde; chaplain, W. H. Rice; medical director, John T. Booth, Cincinnati; council of administration, J. C. Rowland, Cleveland; H. A. Kasson, Akron; W. G. Bentley, Salem; Andrew J. Miller, Cincinnati; J. Cory Winans, Troy; delegate-at-large to national G. A. R. encampment, H. I. Blaire, Lancaster. Lima was selected as the next meeting place.

Suicides at Telephone.

Cleveland, O., June 14.—Standing at a telephone in a room in the Colonial hotel here, Howard F. Weisman held the receiver to his left ear and with his right hand pointed a revolver at his right temple, awaiting words over the wire that would seal his fate.

Weisman was ticket agent for the Northern Ohio Traction company at Chagrin Falls, and it is alleged was \$180 short in his accounts. He sought a settlement to avoid exposure, and this being refused him, Weisman fired the revolver without hanging up the receiver. He is probably fatally injured.

Woman in the Case.

Cincinnati, O., June 14.—Wilt McGuire, 35, colored, was shot and killed by Henry Banks over Julie Wilkinson, whom both men loved. The Wilkinson woman was shot by one of the stray bullets, but was not seriously injured. Banks escaped into Kentucky.

Dose of Strychnine.

Toledo, O., June 14.—In a fit of despondency, caused by a quarrel with her lover, Miss Nellie Stewart, a bookkeeper, committed suicide at her home by taking a dose of strychnine. The girl's mother is prostrated over the death of her only child.

Oldest Woman in the World

MRS. MARY McGRATH, 110 YEARS OLD.

Mrs. Mary McGrath, of Brandon, Wis., who is 110 years of age and the oldest woman in the world, says that when she takes Duffy's Pure Malt Whiskey she feels so well she can walk a mile.

Mrs. McGrath says she tried several other medicines, which did her harm and finally used Duffy's Pure Malt Whiskey as prescribed solely, which restored her to health and prolonged her life.

"I take pleasure in writing to you what a wonderful medicine your Malt Whiskey is. I am never tired of praising it, for it has done me so much good. While I was taking it I could go out and walk a mile. I have taken so many other kinds of medicines since I have been sick, and instead of improving me they did me harm. I know what Duffy's Pure Malt Whiskey does for me, and I want no other medicine." Yours, Mrs. MARY McGRATH, Brandon, Wis., December 18th, 1906.

Duffy's Pure Malt Whiskey is recognized as the best tonic stimulant in the world for both young and old.

Duffy's Pure Malt Whiskey

is distilled wholly from malted grain by a most expensive method which has never been made public and this private process gives it great medicinal value and insures quality and flavor. Its age, softness, palatability and freedom from those injurious substances found in other whiskeys make it acceptable to the most sensitive stomach.

It is an absolutely pure, gentle and invigorating stimulant and tonic. It acts as an antitoxin which destroys and drives out all disease germs, creates new nerve tissues, tones and strengthens the heart, gives power to the brain and elasticity to the muscles, enriches the blood and soothes and heals the mucous membranes. It brings into action all the vital forces. It makes digestion perfect, and enables you to get from the food you eat the nourishment it contains. It is invaluable for overworked men, delicate women and sickly children. It strengthens the system, is a promoter of health and longevity, makes the old young and keeps the young strong. Duffy's Pure Malt Whiskey is a form of food already digested and is recognized as a medicine everywhere.

CAUTION—Sold by all druggists, grocers and dealers or direct, in sealed bottles only; never in bulk. Price \$1. Insist on the genuine and see that the "Old Chemist" trade-mark is on the label and that the seal over the cork is unbroken. Beware of refilled bottles and spurious malt whiskey substitutes offered for sale by unreliable dealers. They are positively harmful and will not cure. Illustrated medical booklet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

The Call of the Kidneys.

One of the first indications that your kidneys are in distress is a dull, painful ache in your back. Another sure sign of kidney or bladder trouble is highly discolored or painful urination.

If either one of these symptoms are present it is most important that you should at once get a box of Lantz's Red Kidney Pills and cleanse your kidneys thus enabling them to perform their proper functions and preventing Diabetes or Bright's Disease.

Tell you why. The kidneys are the scavengers of the body.

Healthy kidneys remove from the blood about 500 grains of impure matter every day.

It does not require a medical training to understand that, if for any reason the kidneys are unable to properly perform this blood cleansing operation, serious derangement, not only to the kidneys, but also to all the other organs of the body must be the result.

So, when the kidneys call for help, it is of the utmost importance to your health that you assist them at once with Lantz's Red Kidney Pills, the very best diuretic known to the medical profession to-day. They not only cleanse the kidneys and aid them to perform their proper functions, but they have a soothing, relaxing effect which acts upon the stomach at the same time, thus expelling through the kidneys and stomach, all impurities from the body.

Our guarantee is in every box.

Cleanse Your Kidneys with Lantz's Red Kidney Pills.

If you have never used these Pills, we will gladly give you a two days' trial treatment free.

Steward Eaton of Princess Anne Did Not Die in the Flames.

Norfolk, Va., June 14.—Residents of Virginia Beach declare that John Eaton, the steward of the burned Princess Anne hotel, who was reported to have perished when the hotel burned early Monday morning, left Virginia Beach the night before the fire and has escaped, although his present whereabouts are unknown.

Bones believed to be those of the chambermaid, Emma Clark, who perished, have been taken from the ruins. The opening of the hotel safe revealed what is said to be several hundred dollars in gold and silver coin and paper money, some of the latter being burned. No jewelry or other valuables were found.

Cockran the Orator. Lincoln, Neb., June 14.—Bourke Cockran of New York was the commencement day orator at the exercises of the University of Nebraska, "Socialism and Christian Education" was his subject, and he declared, after saying that the political and commercial standards of the country were undoubtedly lower than they were a generation ago, that a hopeful sign lay in the popularity of Theodore Roosevelt and William J. Bryan. The popularity of these leaders, he said, is a good indication that the public conscience is right; that it has only to be directed in order to work an improvement in the present conditions of graft and greed.

CHIEF SHERIDAN WAS THE HOST AT A FISH FRY

AT BRUNO, WHICH WAS ATTENDED BY MANY OF HIS FRIENDS.

"The Wearin' of the Green" Was Not in It With "Der Wacht am Rhine" at Entertainment.

Chief of Police Sheridan was the host of a very pleasant fish fry and outing at Bruno Thursday afternoon, which was enjoyed by 22 persons, members of the police department and public safety department and friends of the Chief, and newspaper men, at Jake Shrader's.

The party left the city about 2 o'clock and reached Bruno early in the afternoon where the various amusements offered by Mine Host Jake Shrader were thoroughly enjoyed.

Some of the party took advantage of the opportunity to fish and others, members of the police department, retired to the woods and warmed up their revolvers in a little target practice.

The mysteries of a new game said to have been invented at Bruno, were explained to Officer Hager and Officers Dawson and Zeigler spent the afternoon in training Mr. Hager in the game. Hager with the aid of his men soon mastered the details of the game and soon became quite an adept at it.

A clever contest arranged by Chief Sheridan was pulled off at the supper table. A prize of a glass of water was offered to the man in the party who could eat the greatest number of snuffin. It looked to the guests as though the Chief was betting on a snuffin being won the prize, it being the total number of the snuffins he had eaten.

After supper a program of German songs was rendered in Officer Zeigler's honor. Fred Kussman and others. Chief Sheridan started "The Wearin' of the Green," but no one seemed to know the words and the program was dropped.

Officers Campbell and Callahan were also sent and for this reason the first part of the program could not be carried out.

Mr. James Sweeney, present of Officer Albert with a second specimen of the "fish" he had caught, about an inch in diameter, which the officer is cherishing very highly.

Chief Sheridan will be a week's vacation over general and eastern Kentucky, doing almost incalculable damage to crops, farmhands and townships along the rivers.

1644—Battle of Naseby.
 1777—First form of American flag decreed by congress. The resolution read "that the flag of the 13 United States be 13 stripes, alternate red and white; that the Union be 13 stars, white in a blue field, representing a new constellation." This is the first recorded legislation for the adoption of a national flag. The resolution was not promulgated officially until Sept. 3. The first flag made as prescribed is believed to have been unfurled on the Ranger by Paul Jones, who was appointed the day the resolution passed. The flag of 1777 remained as adopted until 1794, when two additional stripes and two stars were placed in Vermont and Kentucky.

THIRTY TWO SHEEP

KILLED BY LIGHTNING

Mr. A. Carlisle, a prominent farmer of the Sharon Valley, several miles north of Newark, had seventeen ewes and fifteen lambs killed by lightning. They were huddled under a large sugar tree when a bolt of lightning struck the tree and running to the ground spread over the roots of the tree, instantly killing every one of the animals. He had left twenty-two ewes and twenty-two lambs that were on another part of the farm. Mr. Carlisle says he has been working for twelve years to improve his flock and had almost reached the height of his ambition when nearly half of his flock were wiped out in an instant.

MR. WEISGERBER
IN PHILADELPHIA

Mr. E. L. Weisgerber is in Philadelphia attending the meeting of the Master Mechanics' Association of America.

Mr. Frank Deems, who is at the head of the motive power of the New York Central, is president of the association, and is an old Newark man, having worked in the B. & O. shops as machinist here in 1882. His rise in railroad circles has been remarkable.

The Advocate Book Bindery will supply you with blank books for 1907.

WILLIAM HOWARD

TAKEN SUDDENLY ILL

Ex-Officer William Howard, whose residence is on Bower avenue, was suddenly stricken with heart failure at a place of business on Wilson street about 11 p. m. Thursday. Dr. Cosner was called and as the case was serious, had the sick man taken to the Sanitarium at 1 o'clock Friday morning.

His wife was called at 2 o'clock and remained with him until 5 a. m. when, as he appeared to be resting easier, she returned home. At this writing hopes are entertained for his recovery.

Nervous

Indigestion

The action of digestion is controlled by nerves leading to the stomach. When they are weak, the stomach is deprived of its energy. It has no power to do its work. If you want permanent relief, you must restore this energy. Dr. Miles' Nervine restores nervous energy, and gives the organs power to perform their functions.

"For many years I was an acute sufferer from nervous indigestion; at times I was so dependent on life seemed almost a burden. I tried all kinds of remedies and various physicians with little or no relief, and one night last summer I saw Dr. Miles' Nervine and Heart Cure advertised. I resolved to make one more trial which I did in the purchase of one bottle of Nervine and one of Heart Cure. In a few days I began to feel better, which encouraged me so much that I continued the medicine until I had taken more than a dozen bottles. I am very much improved in every way; in body, mind and spirits since. I make a special point to recommend the medicine, and I feel a sincere pleasure in knowing that several persons have been benefited through my recommendations."

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THE ANNUAL COMMENCEMENT

OF NEWARK HIGH SCHOOL

Was Given Thursday Night in the Auditorium
 Before Hundreds of Relatives and
 Friends of the Graduates

Program Was Very Interesting and Every One on the
 Program Acquired Themselves
 Most Honorably.

The fiftieth annual commencement of the Newark High School is now a matter of history. Fifty-six members of the class of 1907, 17 of whom were boys and 39 girls, received their diplomas Thursday night at the commencement exercises held in the Memorial Auditorium.

The big theater was filled with the relatives and friends of the graduates. The program of the evening was carried out as printed, with but one or two minor changes. State School Commissioner E. A. Jones delivered the class address which was full of good words and kind expressions of encouragement to the young graduates who are just stepping into the world.

The interior of the Auditorium was prettily decorated. The stage setting was very nicely arranged and potted palms and banks of ferns completed the decoration. Long streamers of the class colors were draped in front of the foot lights.

The boxes were occupied by various parties. The members of the Board of Education occupied lower boxes on the left, while the members of the Beta Phi fraternity were in the opposite box, which was decorated with the "frat" pennants and colors. In the left upper box were members of the high school sorority.

When the curtain was raised the 56 members of the class were all seated. The first musical number, "The Vision," was a double quartet and was well rendered. Miss Grace Dick presided at the piano in this number as well as most of the other musical selections during the evening.

Rev. L. P. Franklin, rector of Trinity Episcopal church, delivered the invocation of the evening while the members of the class were standing.

Program.

Music, "The Vision" Faure.
 Double Quartet, Irene Henthorne, Mabel Jones, Earle Russell, Ethel Wood, Edward Nehls, Eleanor Place, Adelbert Conley, George Upson.

Invocation, Rev. L. P. Franklin.
 "Value of Public Libraries," Sayde Dell Davis (excused from speaking on account of illness).

"Japan as a Trade Rival," George Dwight Upson.

"Domestic Science in the Schools," Nellie Margaret Mead.

Music, "Somewhere," Harris, Charlotte Irene Henthorne.

"Manual Training in the Schools," James J. McClure.

"Profit Sharing," Martha May McMillen.

"Abraham Lincoln," Edward C. Nehls.

Music "Wienlied," (tenor obligato), Frank, Double Quartet.

"Origin of the English Language," Ethel Genevieve Wood.

"Why Go to College?" Adelbert Beard Conley.

Music, "Because of Thee," Tours, Eleanor H. Place.

Class Address, Hon. E. A. Jones, State Commissioner of Common Schools.

Music, "Class Song," Grace B. Dick, Helen May Redman, The Class of 1907.

Presentation of Diplomas, Mr. F. L. Beggs, President of the Board of Education.

Benediction.

The scholarships given annually by Denison university to the girl and the boy receiving the highest average grades for the four years of the high school course are awarded this year to Sayde Dell Davis and Adelbert Beard Conley.

The essay of Miss Sayde Dell Davis on "The Value of Public Libraries" was replaced on the program by a pretty piano number by Miss Dick. Miss Davis was excused from delivering her oration because of illness. It is to be regretted that the essay was not delivered, as it was one of the best. It is published in this paper.

JAPANESE TRADE RIVAL.

George Dwight Upson told in his address of the reasons why we should fear Japan as a trade rival in the East. His subject "Japan as a Trade Rival," was well handled. It showed careful thought in preparation and was delivered in a clear distinct voice. Mr. Upson said in part: "The United States today is enjoying a period of exceptional prosperity. In fact, the word America has become to be synonymous with prosperity. The Japanese have been received into our

schools and universities and educated as our own young men. They are taking their learning and experience back to Japan, and this Oriental country is rapidly reaching a state of civilization. The Yankees of the East are building up their commercial power rapidly at the cost of others."

DOMESTIC SCIENCE IN SCHOOLS.

The value of domestic science was pointed out by Miss Nellie Margaret Mead in her essay "Domestic Science in the Schools." Miss Mead said that it was no longer possible to deny that manual training in the schools is necessary. She spoke of its value to the pupils and especially so in fitting the young women for the homes.

Miss Mead explained the work in the class room and said that domestic science should be studied in connection with physics, geography, chemistry, etc. She spoke of the relation of chemistry and physics to the preparation of food products and of the application of heat to the various food stuffs.

MANUAL TRAINING IN SCHOOLS.

James J. McClure spoke of the value of training the young men in our schools to some practical use of mechanics. His subject was "Manual Training in the Schools." He said that it was not a part of any one branch of educational work, but a combination of them all. He divided the schools in three classes, classical, commercial and industrial. He spoke of the great need of mechanically educated young men and their value to industry.

He said that America was slow in taking up this department of education, that it was used in Europe several years ago. It was first instituted for the incorrigible, but is now used in other schools. He spoke of the Carnegie institute at Pittsburgh, saying that there were 1,300 students enrolled and over 10,000 applications for admission.

PROFIT SHARING.

Miss Martha May McMillen took for the subject of her essay, "Profit Sharing." She spoke of all the absorbing labor questions and stated that strikes and labor troubles dated back several centuries when the slaves revolted against their masters. Miss McMillen stated that one way of obviating this trouble was to adopt the profit sharing plan, which is already being considered in many places. She said that this plan first originated in the whale fisheries, the vessel owners giving the fishers certain parts of the profits gained from their trade.

Miss McMillen said that real profit sharing could do much towards the settlement of labor troubles and told of a small Wisconsin town where the factory and shop people were paid in this manner. She told of the wonderful prosperity of the place, the lack of crime and the large percentage of attendance in the high schools. Miss McMillen stated that the result of this plan would be a reaction on our moral life. She said that what we need is something to accomplish what the strike does, without its losses.

ABRAHAM LINCOLN.

Edward C. Nehls took for his topic one of our martyred presidents, Abraham Lincoln. He compared the birth of Lincoln with that of Jesus, saying that no one heralded the great man's advent into this world as was the case of the birth of the Savior. Yet, there was a certain similarity in the lowliness of their birth.

He said that it was Lincoln's mission to lead this great ship of state through the stormy times of the rebellion, to be the nation's leader during its most trying hour. Lincoln never saw the inside of a university but his utterances are among the best. Mr. Nehls then closed his essay with Lincoln's Gettysburg address.

light, but there are strong indications that the coming week will be a hummer.

Again the candidates in District No. 1 change places, Miss Goff going first with a margin of 623 votes. Apparently the contest is closer in this district than in any of the others and the friends of both Miss Emery and Miss Goff are deeply interested. While the figures in some of the other districts do not indicate such a close race, yet in a contest (before the close) the figures do not always present the real situation. For example in the Columbus Dispatch contest Thursday Miss Hutchins of Johnstown cast 75,000 votes and advanced from seventh to third place. Some such surprise may be duplicated in Newark.

Each candidate needs the full support of her friends. Your vote may decide the contest. Because a candidate is now leading it is not sure that she will continue in that position to the end, and a contestant who is at the bottom of the list, may have a large collection of votes ready to cast at the right moment. Be prepared for surprises and get in the good work now.

Tomorrow night will decide the special contest for the award of the pretty hat which Clouse & Schaeffer generously give and the beautiful

special effort to secure new subscribers before the close of the contest on June 27, as the Advocate will give three cash prizes, \$20, \$10 and \$5 to those getting the largest number of daily subscribers.

FOR THE PUBLIC GOOD.

An independent and ably edited newspaper which commands a great circulation is probably the most potent influence for good in the United States today. The power for the better things in public affairs and policies, for instance, which is wielded by such a newspaper as The Chicago Record-Herald can scarcely be exaggerated, and much of that strength comes in the case of this leading Chicago daily from the fact that it is absolutely independent, fearless and fair. It is not the mouthpiece of any interest except that of the public. The Record-Herald champions the cause of the good, the clean, the beneficial in every matter of city, state or national moment. It is the knowledge on the part of its readers that it cares not whom it hits or what enemies it makes, so long as it is battling for the welfare of the community, which gives to The Record-Herald much of the influence it enjoys. It gives in its news columns the most complete and impartial reports of political events, another evidence of its splendid news service.

WHY GO TO COLLEGE?

The subject of Adolbert Board Conley's oration was one of unusual interest to young graduates. He spoke on the subject "Why Go to College?" Mr. Conley pointed out the fact that the college-bred man has one chance in forty for success, while the uneducated man has but one in 10,000. He said that college-taught men have the power of thinking which makes progressiveness. The student encounters in colleges the same conditions he meets in after life and he is taught to battle with these conditions successfully. He asked why the college-bred man should not go into the west where there is a vast territory for mitigation and cultivation. Mr. Conley stated that there never could be an over-supply of educated men.

This oration concluded the essays, and after a preliminary "Because of This," by Miss Eleanor Place, Hon. E. A. Jones, State School Commissioner, delivered the class address.

Mr. Jones complimented the members of the class on the practical topics of their essays and upon the excellent delivery of them. He said that this was a sort of a semi-centennial celebration of the establishing of the High School in Newark, it being the 50th annual commencement. He said that there were now 922 or almost a thousand graduates from the Newark High School. He spoke of the young people in the lower grades and urged them to go ahead with their work, no matter what grade they were in. He made a strong plea for higher education and referred to the very excellent essay of Mr. Conley, stating why the young people should go to college. Mr. Jones stated that the greatest aim of education is to live in harmony with God's law, physical, mental and moral. Mr. Jones closed his remarks by wishing the members of this class every success in life.

President of the School Board Frank L. Beggs, on behalf of the Board of Education, presented the diplomas to the class. Mr. Beggs said that the board was about to confer upon the graduates the highest honor possible to gain in this school. He urged them to live in such a manner

FRANK L. BEGGS.

as to never bring reproach upon the class of 1907.

Mr. Beggs, who is a polished speaker, said neither too much nor too little. His address, like that of Commissioner Jones, was right to the point and was much appreciated.

The class of 1907 is to be congratulated upon the program of Thursday night. The several members who represented the class acquitted themselves in a highly creditable way and many are the compliments heard on the orations. The graduates had the good sense to write on topics of interest. They handled subjects of a practical nature. Abstract themes and hypothetical language had no place

audience was not only entertained highly, but was instructed as well.

MISS SADYE DAVIS

Class Valedictorian, Unable to Speak—Her Theme Was "The Value of a Public Library."

Miss Sadye Dell Davis, the class valedictorian, was unable to deliver her oration, entitled "The Value of a Public Library," and it is herewith given for the benefit of those who were disappointed in not hearing it. Miss Davis and Adolbert Conley won the scholarships offered by Denison University for the highest averages in studies for the four years' High School course. Miss Davis' essay is as follows:

A little over a half century ago saw the beginning of the free library maintained by public taxation, but its growth has been very rapid, and during the last 15 years it has been working toward the development of a national institution as distinctive and influential as our common school system. It is co-operative with the public schools and furnishes a means of continuing education after the school course is completed.

If we make a short visit to one of these institutions of learning, we shall realize, as in no other way, the work that is being done. Let us select one of the newest Carnegie libraries which is modern in all its equipments.

As we approach the building, we are impressed by the simplicity and dignity of its architecture, and feel sure that such a structure would be an improvement to any community even if there were not "treasures within." And they are indeed treasures and prove themselves so to rich and poor, young and old, for the patronage of the library is confined to no single class.

We shall first go to the reference room, one of the most useful features of the library. It is large and pleasant and is furnished with dark oak tables and comfortable chairs. In the book-cases which line the walls, may be found encyclopedias, books of reference on all subjects, and bound files of the leading magazines. Indexes and catalogues enable one to hunt out a subject for himself to a large extent; but whenever assistance is needed the attendant librarian is at hand. This room is much appreciated by students, ministers, journalists, club members and many others.

As we make our way through the broad hallways, we realize that the library also makes for general culture. All convenient places for busts and pieces of statuary are utilized. On the second floor we find the general reading room, the walls of which are adorned with fine engravings. Here anyone has the privilege of reading the leading newspapers, and other periodicals of the day.

Descending the wide stairway, in the basement we come to a large room which contains a collection of medical books—donations of different physicians in the city—which is being added from time to time. There is also a good sized auditorium where free lectures on a variety of instructive subjects are held. This is one of the newest methods used in the education of the general public. It raises the standard of the books in circulation, for, wherever these lectures have been given there is a large demand for the books on the same subjects.

As we reach the main floor again, we see a number of children in groups of twos and threes going toward the room at the end of the hall. What is so attractive? Here comes a little girl, important in the care of a small brother. Apparently she is a stranger to the library, for she asks, "Where is the room where children can get books?" Let us follow her and also be initiated into the delights of the children's room.

It is light and airy and cork carpet on the floor helps to maintain quiet, which is the rule here. The system and order of the place is as great a factor in the children's education as the reading of books. Children of all classes, and ages are sitting at the low tables. The smallest are looking at brightly colored picture books; some of the older ones are diligently

ings; others are selecting books from the cases which extend entirely around the room. They are aided in this by the attendant librarian, who suggests what she thinks is best for them to read.

The books read influence one greatly, but especially is this true in the case of children, who are just forming their ideas of life. How important then, that they should read books, which set forth high ideals. From histories and biographies of great men, they learn that not luck, but pluck and industry are what move the world.

Many of these children come from homes where there are no literary advantages whatever, but they have learned in school to read, and the librarians are sometimes surprised at how willing in this direction.

But the child must be interested in the subject matter of the book. To create this interest story hours are held in a room, provided for this purpose in another part of the building. Often classical subjects are treated in a simple but attractive manner, or some biography is told. Great interest is manifested in the story hour, and there is a demand for the books relating to the same subjects. The children's work is obviously one of the best features of the library; so much can be done among them to cultivate a taste for the best things in literature.

So we decide that the public library can do almost as great a work as the public school. What then is the cost or its maintenance as compared with the school. We find that it is not one-tenth as much. Its profits, however, cannot be estimated in dollars and cents, but in the intellectual development of the children, in the moulding of the character of the young men and women, and the betterment of the community as a whole. What institution has a nobler work?

Why, then is there any town or city, without a public library, when Andrew Carnegie stands ready to give a fine building if the people of the community will assume the expense of maintenance? The absence of such an institution is at once noticed and wondered at by visitors in our city, in other respects so progressive. Why does not Newark have a public library?

CHANGES TODAY IN NEW CASTLE TEAM

New Castle, Pa., June 14.—Third baseman Green was released today and Clark was farmed to the Clarksburg team of the West Penn. League.

"DOC." ABBOTT

Former Lancaster Fielder Given a Bouquet by Youngstown Paper. Others Complimented.

"Doc" Abbott, the former Lancaster left fielder who was cut loose by Dayton last week, has signed with Newark. He played his first game as a Molder, Monday, holding down the right garden. This gives the Molders a pretty good outfielder, one of the best in the league. Lefty Snyder in left is one of the good ones. Al Schweizer is good in the middle patch and Abbott should be the best right garden in the league with his speed in the field and good sticking. —Youngstown Telegram.

FORMER NEWARK MAN HONORED

J. M. GRAHAM GIVEN A DEGREE
BY KENTUCKY STATE COL-
LEGE AT LEXINGTON.

One of Eight Men Who s Given the
Honorary Degree of Doctor of
Engineering.

(Special to the Advocate.)

New York, June 11.—Mr. J. M. Graham, vice president of the Erie railroad, formerly of Newark, has just returned from a trip to Lexington, Ky., where he and Mrs. Graham went to attend the commencement of the Kentucky State College. They arrived in Lexington on June 1, and while there were the guests of President and Mrs. Patterson, who was president of the college at the time Mr. Graham graduated from there thirty years ago. On Tuesday evening a reception was given by President and Mrs. Patterson, at which was present the college faculty and trustees and other prominent men, at which Mr. Graham was the guest of honor. On Wednesday a luncheon was given by President Patterson and the mayor, to about 25 guests, at which Mr. Graham was also the guest of honor. Thursday the commencement exercises were held at which 72 students were graduated. At the conclusion of the exercises, President Patterson, in a very complimentary speech, conferred on Mr. Graham the honorary degree of Doctor of Engineering. This is quite a signal honor, as not more than about eight persons in the United States have had this degree conferred upon them.

Mr. Graham's most notable work in the engineering field has been on the Baltimore and Ohio and Erie railroads. On the former road, he was the pioneer in inaugurating important improvements in the matter of grade reductions of railroads to increase the train load, and during the five years he was chief engineer of that system, the line was relocated, changing it from a higher grade road with extremely bad alignment to a road having the most favorable grades of any of the trunk lines between the Atlantic coast and Chicago; and a large part of the work has been completed and surveys filed for the balance of the improvements necessary to complete the low-grade line at the time of his leaving.

Since his connection with the Erie surveys have been made for improvements which will give a line with a maximum ruling gradient eastbound between Cleveland and New York of 10 1-2 feet per mile, which is more favorable than the line of any other railroad between these points, and a large part of this work is now under construction.

Prior to his connection with the B. & O., on which he was also superintendent and general superintendent at Newark, as well as chief engineer, Mr. Graham was general manager and chief engineer of the Northern Pacific and Manitoba, assistant general superintendent of the Northern Pacific and chief engineer of other railroads.

The 8-year-old son of R. L. Hoke, a farmer near Princeton, W. Va., was struck by lightning while sleeping in bed with two younger brothers, and died three hours later. Neither of the other children was injured.

DEATHS AND FUNERALS

MRS. JACOB FINK.
Word has been received in this city of the sudden death of Mrs. Jacob Fink of Hopewell township, which occurred Thursday morning at Muncie, Ind., where she had been visiting for the past three weeks at the home of her sons. Death resulted suddenly from erysipelas. The remains will be brought to Pleasant Valley Friday evening. A husband, three daughters and five sons survive.

CZAR NICHOLAS MAY DISSOLVE RUSSIAN DOUMA

St. Petersburg, June 14.—Plots to overthrow the government, assassinate the czar and establish a democratic republic were revealed this morning by Premier Stolypin, following the early morning assassination of Col. Kotlaroff, deputy commissioner of the port of St. Petersburg. Kotlaroff was assassinated by a workman employed in the admiralty, as a result of the death sentence passed upon him by the revolutionists because he reduced the force of workmen of the admiralty. The assassin was captured but a number of accomplices escaped.

Premier Stolypin, whose action is believed to have been precipitated by the death of Kotlaroff, appeared in the lower house of the Douma and demanded the immediate arrest of 16 members, whom he accused with having formed conspiracy to remove the czar and overthrow the government and set up a democratic republic.

Among these sixteen leaders are Alexansky, Prezerelari, Dzhartharize and Ozel. Stolypin then demanded that the lower house at once expel five members, whom he named all of them being of the extreme democratic element. The premier said that the parliament would be at once dissolved unless the members complied with his orders.

The Douma is now in session considering the government's demands. They probably will be refused. Then the czar will dissolve the Douma. In this case a great Russian revolt is expected to break out.

ANTAGONISM

Between England and Germany May Undo Peace Meet's Work.

The Hague, June 11.—With the names of the delegates of half a dozen of the smaller states still missing, the list of delegates and attaches on file at the Dutch foreign office now number 199. Although no actual news developments are anticipated until the conference gets under way and the powers begin to show their hands, it is increasingly apparent that the chief interest of the conference will revolve about the jealousy and antagonism between Great Britain and Germany, and there are plenty of pessimists who predict an open clash which will jeopardize, if not wreck, the work that the conference meets to perform.
